NORFOLK & WESTERN R. CO. V BOARD PUB. WORKS.

Supreme Court of Appeals of Virginia March 16th, 1899.

THE PLACE OF ENROLLMENT OF REGISTRATION OF TUGS AND BARGES OF A VIRGINIA RAIL-FIX THEIR SITUS FOR TAXA-TION, BUT THEY SHOULD BE TAXED IN THE COUNTY IN WHICH THEY REMAINED WHEN

WHICH TLEY REMAINED WHEN IN THE STATE.

The plaintiff filed a petition in the Circuit Court of the city of Richmond asking to be relieved from an assessment upon certain tugs and barges belonging to it, which had been made by the Board of Public Works. The plaintiff claimed that the assessment was filegal because the property was not subject to taxation in Virginia. The railroad company was a Virginia corporation and was largely engaged in moving coal from the terminus of its railroad at Lambert's Point, in Norfolk county, by means of the tugs and barges in question, to various points outside of the State. The tugs and barges were enrolled in the custom house in the city of Philadelphia in the name of the socretary of the railroad company, but were not assessed for taxation there or anywhere else except in Virginia, When in Virginia they remained at Lambert's Point and never loaded elsewhere. The lower court held the assessment proper and gave judgment against the railroad company, and it appealed.

The court says:

That these tugs and barges are engaged in inter-State commerce does not exempt them from taxation, nor does the place of their envolument or registration fix their situs for taxation, though it is a circumstance to be considered in its determination. The facts, in our judgment, clearly snow that the property in question is owned and may be lawfully taxed in this State, but we are further of opinion that it should have been assessed for taxation in the county of Norfolk, within whose limits Lambert's Foint is situated. Amended and affirmed.

more or less explicitly. The reason usually given for the rule is that it is impracticable for the indorsee or holder of a bill of exchange or check to know or learn whether the signature of the drawer is genuine, and that the bank or other drawer has the best means of knowing or learning the factor, as sometimes expressed, the bank may be presumed to know the signature of its depositor, and the acceptor the signature of his business correspondent.

pondent.

We find the plaintiff was an innocent holder for value, and that the loss by forgery fell, in the course of business, upon the bank. We hold that the defendant, though he has suffered no loss, is protected by the rule cited, and that under the rule, the loss cannot be thrown off the bank upon him. Plaintiffs nonsuit.

Our family physician was faithful but could only relieve temporarily. Eceping boarders, I was on my feet a great deal. Finally the dye in some red stockings poisoned my infamed ankles, making many sores. I was in centinual misery, gangrene setting in five times. The bones were visible, finger and toe nails came off and my hair came out. I could not sleep without opiates. I dreaded death, but dreaded life all the more. I suffered until the spring of 1892 when our draggist suggested that I try Hood's Sarsaparilla as a last resort. The discharges gradually healed, new flesh formed, new mails and hair grew, until after taking twenty bottles I was completely cured and I naturally bless the medicine.
